Case No.

Dear **Maria,**

In accordance with your request, I have personally inspected and prepared an appraisal report of the real property located at:

**2651 S. Lincoln Street, Stockton, CA 95206**

The purpose of this appraisal is to estimate the market value of the property described in the body of this appraisal report.

Enclosed, please find the appraisal report which describes certain data gathered during our investigation of the property. The methods of approach and reasoning in the valuation of the various physical and economic factors of the subject property are contained in this report.

An inspection of the property and a study of pertinent factors, including valuation trends and an analysis of neighborhood data, led the appraiser to the conclusion that the market value, as of **03/24/2023** is:

\$ **330,000**

The opinion of value expressed in this report is contingent upon the limiting conditions attached to this report.

It has been a pleasure to assist you. If I may be of further service to you in the future, please let me know.

Respectfully submitted,

Signature: \_\_\_\_\_

Summary of Sales Comparison Approach **\*\*\*Please see Comment Addendum for comments on Sales Comparison Approach\*\*\***

Indicated Value by Sales Comparison Approach \$ **330,000**

**Indicated Value by: Sales Comparison Approach \$ 330,000 Cost Approach (if developed) \$ 333,620 Income Approach (if developed) \$**

The sales comparison approach is given the most weight as it most truly reflects the actions of buyers & sellers in the real estate market. The cost approach is supportive of the sales comparison approach. The income approach is not required and given little weight, as residential properties in this area are not typically utilized for their income producing potential.

This appraisal is made  "as is,"  subject to completion per plans and specifications on the basis of a hypothetical condition that the improvements have been completed,  subject to the following repairs or alterations on the basis of a hypothetical condition that the repairs or alterations have been completed, or  subject to the following required inspection based on the extraordinary assumption that the condition or deficiency does not require alteration or repair: This appraisal is made "as-is".

This is an Appraisal Report. Please see Comment Addendum for additional comments. The electronic signature is the same as the live signature.

**Based on a complete visual inspection of the interior and exterior areas of the subject property, defined scope of work, statement of assumptions and limiting conditions, and appraiser's certification, my (our) opinion of the market value, as defined, of the real property that is the subject of this report is \$ **330,000**, as of **03/24/2023**, which is the date of inspection and the effective date of this appraisal.**

**COMMENTS ON NEIGHBORHOOD DESCRIPTION:**

The subject is located in an established neighborhood in the southern portion of the City of Stockton. The subject is of the same general construction as the area. The area consists of various styles of homes including single and two story, with various floor plan styles, bedroom and bathroom counts and ranging in age from 5 years to 100+ years. The subject fits the general condition and quality of the area. In addition to SFR's there are 2-4 family and commercial properties interspersed throughout the area.

**COMMENTS ON MARKET CONDITIONS:**

The area has had moderate sales volume with values increasing over the previous twelve months. During this span, the subject's market segment of homes ranging from 600 sf - 999 sf have reflected a 5% increase in median sales price. This market is a mix of traditional sales, REO sales and short sale properties, with traditional sales currently the dominate factor. This market appears stable as current interest rates remain favorable. Currently, supply and demand appear to be in balance.

**COMMENTS ON SUBJECT SITE:**

There are no adverse conditions known or observed. The subject is a typical interior parcel for this area. The appraiser was not provided with a copy of the preliminary title report, and therefore, cannot guarantee that property is free of encroachments or easements, and recommends further investigation and survey. There is no external obsolescence noted. The subject is located in close proximity to Interstate 5, however, there does not appear to be any negative impact on value or marketability due to this location as a sound there is no significant noise factor associated with the subject's location.

**COMMENTS ON CONDITION OF IMPROVEMENTS:**

The subject is of average quality construction and in average overall condition, with some areas of deferred maintenance noted. There is no functional obsolescence noted. At the time of inspection all utilities (i.e. water, gas and electric) were on and appeared to be in working order. All kitchen cabinetry and appliances were present and appeared functional. The subject's lacks updating and at the time of inspection lacked a permanent heat source, the exterior wood siding had areas in need of repair, the exterior paint was at the end of its effective life, there were electrical switches and outlets that were not properly installed and the toilet in the master bathroom was in need of repair. In addition, the subject's garage has been converted with permits (see attached Permit History), however, at the time of inspection lacked floor coverings, lacked heating, had the exterior door sealed shut with spray foam insulation and the water heater was exposed and lacked safety straps. The garage conversion, although done with permits, is not considered to be living space due to its current condition, and therefore, for the purpose of this appraisal assignment, will not be included in the subject's overall GLA square footage and will be valued at its "highest and best use" as a functional two car garage. The subject features an owned solar PV system.

**COMMENTS ON SALES COMPARISON APPROACH:**

All comparables are from within the subjects market area and have been adjusted for their significant differences. After bracketing the subject, all comparables required adjustments to reflect their significant differences in parcel size (@ \$1/sf for differences in excess of 1,000/sf). In addition, due to the lack of sales, pending sales and/or active listings more similar overall to the subject property, all comparables required adjustments to reflect the subject's lack of a permanent heat source (@ \$5,000 for central heat and air; \$3,000 for wall furnace) and to reflect the subject's owned solar PV system (@ \$10,000). Comparables #2, #3, #5 and #6 required adjustments to reflect their differences in garage space (@ \$5,000 per space). Comparables #2, #3 and #6 required adjustments to reflect their differences in bedroom counts (@ \$5,000 per bedroom). Comparables #2, #5 and #6 required adjustments to reflect their significant differences in GLA square footage (@ \$65/sf for differences in excess of 100/sf). Comparables #3, #4 and #6 required adjustments to reflect their differences in bathroom counts (@ \$5,000 per full bathroom and \$2,500 per half bathroom). Comparables #2 and #4 required adjustments to reflect their superior overall condition due to recent updating (@ 12.5%). Comparable #1 required an adjustment to reflect its lack of dual pane windows (@ \$3,000). Comparable #5 required an adjustment to reflect its inferior location on a neighborhood access street (@ \$5,000). Comparables #2 and #4 feature adjustments that exceed typical guidelines, however, these adjustments were necessary due the lack of sales, pending sales and/or active listings more similar overall to the subject property. After making all the necessary adjustments to all comparables, these comparables are considered to be the most recent, most similar and best indicators of current market value. After adjustments, most consideration in the final value opinion has been given comparable sale #1 as it is the most recent sale and appears to be the most similar overall to the subject. Additional support in the opinion of value is provided by comparable #4, a model match home located on the subject street, however, this property has been updated. The opinion of value stated within this report is consistent with the predominate value for the area.

\*\*\*When necessary due to people present and/or protest from the current owner/tenant, MLS photographs of the comparable properties have been utilized within this report\*\*\*

**COMMENTS ON EXPOSURE TIME:**

An opinion, based on supporting market data, of the length of time that the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal. The appraiser has determined the subject property would have to be exposed for 14 - 45 days in order to have a market value range of \$325,000 - \$355,000 on the effective date of this appraisal.

**INTENDED USER:**

Clarification of Intended User - (Certification #23) The Intended User of this appraisal report is the Lender/Client (Salas Financial). The Intended Use is to evaluate the property that is the subject of this appraisal for a mortgage finance transaction, subject to the stated Scope of Work, purpose of the appraisal, reporting requirements of this appraisal report form, and Definition of Market Value. No additional Intended Users are identified by the appraiser.

**Uniform Residential Appraisal Report**

This report form is designed to report an appraisal of a one-unit property or a one-unit property with an accessory unit; including a unit in a planned unit development (PUD). This report form is not designed to report an appraisal of a manufactured home or a unit in a condominium or cooperative project.

This appraisal report is subject to the following scope of work, intended use, intended user, definition of market value, statement of assumptions and limiting conditions, and certifications. Modifications, additions, or deletions to the intended use, intended user, definition of market value, or assumptions and limiting conditions are not permitted. The appraiser may expand the scope of work to include any additional research or analysis necessary based on the complexity of this appraisal assignment. Modifications or deletions to the certifications are also not permitted. However, additional certifications that do not constitute material alterations to this appraisal report, such as those required by law or those related to the appraiser's continuing education or membership in an appraisal organization, are permitted.

**SCOPE OF WORK:** The scope of work for this appraisal is defined by the complexity of this appraisal assignment and the reporting requirements of this appraisal report form, including the following definition of market value, statement of assumptions and limiting conditions, and certifications. The appraiser must, at a minimum: (1) perform a complete visual inspection of the interior and exterior areas of the subject property, (2) inspect the neighborhood, (3) inspect each of the comparable sales from at least the street, (4) research, verify, and analyze data from reliable public and/or private sources, and (5) report his or her analysis, opinions, and conclusions in this appraisal report.

**INTENDED USE:** The intended use of this appraisal report is for the lender/client to evaluate the property that is the subject of this appraisal for a mortgage finance transaction.

**INTENDED USER:** The intended user of this appraisal report is the lender/client.

**DEFINITION OF MARKET VALUE:** The most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller, each acting prudently, knowledgeably and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby: (1) buyer and seller are typically motivated; (2) both parties are well informed or well advised, and each acting in what he or she considers his or her own best interest; (3) a reasonable time is allowed for exposure in the open market; (4) payment is made in terms of cash in U. S. dollars or in terms of financial arrangements comparable thereto; and (5) the price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions\* granted by anyone associated with the sale.

\*Adjustments to the comparables must be made for special or creative financing or sales concessions. No adjustments are necessary for those costs which are normally paid by sellers as a result of tradition or law in a market area; these costs are readily identifiable since the seller pays these costs in virtually all sales transactions. Special or creative financing adjustments can be made to the comparable property by comparisons to financing terms offered by a third party institutional lender that is not already involved in the property or transaction. Any adjustment should not be calculated on a mechanical dollar for dollar cost of the financing or concession but the dollar amount of any adjustment should approximate the market's reaction to the financing or concessions based on the appraiser's judgment.

**STATEMENT OF ASSUMPTIONS AND LIMITING CONDITIONS:** The appraiser's certification in this report is subject to the following assumptions and limiting conditions:

1. The appraiser will not be responsible for matters of a legal nature that affect either the property being appraised or the title to it, except for information that he or she became aware of during the research involved in performing this appraisal. The appraiser assumes that the title is good and marketable and will not render any opinions about the title.
2. The appraiser has provided a sketch in this appraisal report to show the approximate dimensions of the improvements. The sketch is included only to assist the reader in visualizing the property and understanding the appraiser's determination of its size.
3. The appraiser has examined the available flood maps that are provided by the Federal Emergency Management Agency (or other data sources) and has noted in this appraisal report whether any portion of the subject site is located in an identified Special Flood Hazard Area. Because the appraiser is not a surveyor, he or she makes no guarantees, express or implied, regarding this determination.
4. The appraiser will not give testimony or appear in court because he or she made an appraisal of the property in question, unless specific arrangements to do so have been made beforehand, or as otherwise required by law.
5. The appraiser has noted in this appraisal report any adverse conditions (such as needed repairs, deterioration, the presence of hazardous wastes, toxic substances, etc.) observed during the inspection of the subject property or that he or she became aware of during the research involved in performing this appraisal. Unless otherwise stated in this appraisal report, the appraiser has no knowledge of any hidden or unapparent physical deficiencies or adverse conditions of the property (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) that would make the property less valuable, and has assumed that there are no such conditions and makes no guarantees or warranties, express or implied. The appraiser will not be responsible for any such conditions that do exist or for any engineering or testing that might be required to discover whether such conditions exist. Because the appraiser is not an expert in the field of environmental hazards, this appraisal report must not be considered as an environmental assessment of the property.
6. The appraiser has based his or her appraisal report and valuation conclusion for an appraisal that is subject to satisfactory completion, repairs, or alterations on the assumption that the completion, repairs, or alterations of the subject property will be performed in a professional manner.

**Uniform Residential Appraisal Report****APPRAISER'S CERTIFICATION:** The Appraiser certifies and agrees that:

1. I have, at a minimum, developed and reported this appraisal in accordance with the scope of work requirements stated in this appraisal report.
2. I performed a complete visual inspection of the interior and exterior areas of the subject property. I reported the condition of the improvements in factual, specific terms. I identified and reported the physical deficiencies that could affect the livability, soundness, or structural integrity of the property.
3. I performed this appraisal in accordance with the requirements of the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
4. I developed my opinion of the market value of the real property that is the subject of this report based on the sales comparison approach to value. I have adequate comparable market data to develop a reliable sales comparison approach for this appraisal assignment. I further certify that I considered the cost and income approaches to value but did not develop them, unless otherwise indicated in this report.
5. I researched, verified, analyzed, and reported on any current agreement for sale for the subject property, any offering for sale of the subject property in the twelve months prior to the effective date of this appraisal, and the prior sales of the subject property for a minimum of three years prior to the effective date of this appraisal, unless otherwise indicated in this report.
6. I researched, verified, analyzed, and reported on the prior sales of the comparable sales for a minimum of one year prior to the date of sale of the comparable sale, unless otherwise indicated in this report.
7. I selected and used comparable sales that are locationally, physically, and functionally the most similar to the subject property.
8. I have not used comparable sales that were the result of combining a land sale with the contract purchase price of a home that has been built or will be built on the land.
9. I have reported adjustments to the comparable sales that reflect the market's reaction to the differences between the subject property and the comparable sales.
10. I verified, from a disinterested source, all information in this report that was provided by parties who have a financial interest in the sale or financing of the subject property.
11. I have knowledge and experience in appraising this type of property in this market area.
12. I am aware of, and have access to, the necessary and appropriate public and private data sources, such as multiple listing services, tax assessment records, public land records and other such data sources for the area in which the property is located.
13. I obtained the information, estimates, and opinions furnished by other parties and expressed in this appraisal report from reliable sources that I believe to be true and correct.
14. I have taken into consideration the factors that have an impact on value with respect to the subject neighborhood, subject property, and the proximity of the subject property to adverse influences in the development of my opinion of market value. I have noted in this appraisal report any adverse conditions (such as, but not limited to, needed repairs, deterioration, the presence of hazardous wastes, toxic substances, adverse environmental conditions, etc.) observed during the inspection of the subject property or that I became aware of during the research involved in performing this appraisal. I have considered these adverse conditions in my analysis of the property value, and have reported on the effect of the conditions on the value and marketability of the subject property.
15. I have not knowingly withheld any significant information from this appraisal report and, to the best of my knowledge, all statements and information in this appraisal report are true and correct.
16. I stated in this appraisal report my own personal, unbiased, and professional analysis, opinions, and conclusions, which are subject only to the assumptions and limiting conditions in this appraisal report.
17. I have no present or prospective interest in the property that is the subject of this report, and I have no present or prospective personal interest or bias with respect to the participants in the transaction. I did not base, either partially or completely, my analysis and/or opinion of market value in this appraisal report on the race, color, religion, sex, age, marital status, handicap, familial status, or national origin of either the prospective owners or occupants of the subject property or of the present owners or occupants of the properties in the vicinity of the subject property or on any other basis prohibited by law.
18. My employment and/or compensation for performing this appraisal or any future or anticipated appraisals was not conditioned on any agreement or understanding, written or otherwise, that I would report (or present analysis supporting) a predetermined specific value, a predetermined minimum value, a range or direction in value, a value that favors the cause of any party, or the attainment of a specific result or occurrence of a specific subsequent event (such as approval of a pending mortgage loan application).
19. I personally prepared all conclusions and opinions about the real estate that were set forth in this appraisal report. If I relied on significant real property appraisal assistance from any individual or individuals in the performance of this appraisal or the preparation of this appraisal report, I have named such individual(s) and disclosed the specific tasks performed in this appraisal report. I certify that any individual so named is qualified to perform the tasks. I have not authorized anyone to make a change to any item in this appraisal report; therefore, any change made to this appraisal is unauthorized and I will take no responsibility for it.
20. I identified the lender/client in this appraisal report who is the individual, organization, or agent for the organization that ordered and will receive this appraisal report.

Uniform Residential Appraisal Report

21. The lender/client may disclose or distribute this appraisal report to: the borrower; another lender at the request of the borrower; the mortgagee or its successors and assigns; mortgage insurers; government sponsored enterprises; other secondary market participants; data collection or reporting services; professional appraisal organizations; any department, agency, or instrumentality of the United States; and any state, the District of Columbia, or other jurisdictions; without having to obtain the appraiser's or supervisory appraiser's (if applicable) consent. Such consent must be obtained before this appraisal report may be disclosed or distributed to any other party (including, but not limited to, the public through advertising, public relations, news, sales, or other media).

22. I am aware that any disclosure or distribution of this appraisal report by me or the lender/client may be subject to certain laws and regulations. Further, I am also subject to the provisions of the Uniform Standards of Professional Appraisal Practice that pertain to disclosure or distribution by me.

23. The borrower, another lender at the request of the borrower, the mortgagee or its successors and assigns, mortgage insurers, government sponsored enterprises, and other secondary market participants may rely on this appraisal report as part of any mortgage finance transaction that involves any one or more of these parties.

24. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

25. Any intentional or negligent misrepresentation(s) contained in this appraisal report may result in civil liability and/or criminal penalties including, but not limited to, fine or imprisonment or both under the provisions of Title 18, United States Code, Section 1001, et seq., or similar state laws.

SUPERVISORY APPRAISER'S CERTIFICATION: The Supervisory Appraiser certifies and agrees that:

- 1. I directly supervised the appraiser for this appraisal assignment, have read the appraisal report, and agree with the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
2. I accept full responsibility for the contents of this appraisal report including, but not limited to, the appraiser's analysis, opinions, statements, conclusions, and the appraiser's certification.
3. The appraiser identified in this appraisal report is either a sub-contractor or an employee of the supervisory appraiser (or the appraisal firm), is qualified to perform this appraisal, and is acceptable to perform this appraisal under the applicable state law.
4. This appraisal report complies with the Uniform Standards of Professional Appraisal Practice that were adopted and promulgated by the Appraisal Standards Board of The Appraisal Foundation and that were in place at the time this appraisal report was prepared.
5. If this appraisal report was transmitted as an "electronic record" containing my "electronic signature," as those terms are defined in applicable federal and/or state laws (excluding audio and video recordings), or a facsimile transmission of this appraisal report containing a copy or representation of my signature, the appraisal report shall be as effective, enforceable and valid as if a paper version of this appraisal report were delivered containing my original hand written signature.

# MULTI PURPOSE SUPPLEMENTAL ADDENDUM FOR FEDERALLY RELATED TRANSACTIONS

File No. **23-0079**  
Case No.

Borrower/Client <b>Taffola, Brandon</b>				
Property Address <b>2651 S. Lincoln Street</b>				
City <b>Stockton</b>	County	<b>San Joaquin</b>	State <b>CA</b>	Zip Code <b>95206</b>
Lender <b>Salas Financial</b>	Address <b>9320 Chesapeake Drive Suite 116, San Diego, CA 92123</b>			

This Multi-Purpose Supplemental Addendum for Federally Related Transactions was designed to provide the appraiser with a convenient way to comply with the current appraisal standards and requirements of the Federal Deposit Insurance Corporation (FDIC), the Office of the Controller of Currency (OCC), The Office of Thrift Supervision (OTS), the Resolution Trust Corporation (RTC) and the Federal Reserve.

**This Multi-Purpose Supplement Addendum is for use with any appraisal. Only those statements which have been checked by the appraiser apply to the property being appraised.**

**PURPOSE & FUNCTION OF APPRAISAL**

The purpose of the appraisal is to estimate the market value of the subject property as defined herein. The function of the appraisal is to assist the above-named Lender in evaluating the subject property for lending purposes. This is a Federally related transaction.

**EXTENT OF APPRAISAL PROCESS**

- The appraisal is based on the information gathered by the appraiser from public records, other identified sources, inspection of the subject property and neighborhood, and selection of comparable sales within the subject market area. The original source of the comparables is shown in the Data Source section of the market grid along with the source of confirmation, if available. The original source is present first. The sources and data are considered reliable. When conflicting information was provided, the source deemed most reliable has been used. Data believed to be unreliable was not included in the report nor used as a basis for the value conclusion.
- The Reproduction Cost is based on The Marshall & Swift Residential Cost Services supplemented by the appraiser's knowledge of the local market.
- Physical depreciation is based on the estimated effective age of the subject property. Functional and/or external depreciation, if present, is specifically addressed in the appraisal report or other addenda. In estimating the site value, the appraiser has relied on personal knowledge of the local market. The knowledge is based on prior/or current analysis of site sales and/or abstractions of site values from sales of improved properties.
- The subject property is located in an area of primarily owner-occupied single family residences and the Income Approach is not considered to be meaningful. For this reason, the Income Approach was not used.
- The Estimated Market Rent and Gross Rent Multiplier utilized in the Income Approach are based on the appraiser's knowledge of the subject market area. The rental knowledge is based on prior and/or current rate surveys of residential properties. The Gross Rent Multiplier is based on prior and/or current analysis of prices and market rates for residential properties.
- For income producing properties, actual rents, vacancies and expenses have been reported and analyzed. They have been used to project future rents, vacancies and expenses.

ADDITIONAL CERTIFICATION

- The Appraiser certifies and agrees that:
- (1) Their analyses, opinions and conclusions were developed, and this report was prepared, in conformity with the Uniform Standards of Professional Appraisal Practice ("USPAP").
  - (2) Their compensation is not contingent upon the reporting of predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.
  - (3) This appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

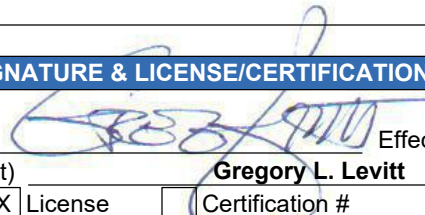

ADDITIONAL (ENVIRONMENTAL) LIMITING CONDITIONS

The value estimated is based on the assumption that the property is not negatively affected by the existence of hazardous substances or detrimental environmental conditions unless otherwise stated in this report. The appraiser is not an expert in the identification of hazardous substances or detrimental environmental conditions. The appraiser's routine inspection of and inquiries about the subject property did not develop any information that indicated any apparent significant hazardous substances or detrimental environmental conditions which would affect the property negatively unless otherwise stated in this report. It is possible that tests and inspections made by a qualified hazardous substance and environmental expert would reveal the existence of hazardous substances or detrimental environmental conditions on or around the property that would negatively affect its value.
